

Pro Class 100™ Backroom

With the inclusion of complete back room support components, the Pro Class 100™ is **easy to install**. The Equipment Control Center of the Pro Class 100™ Backroom pulls everything together. It houses and integrates all of the support and control equipment, plumbing and valves, chemical metering and utility distribution into an orderly and **user-friendly** platform for the car wash attendant. The need for separate hydraulic, electrical, chemical and pneumatic system designs is eliminated, which helps reduce architect and contractor fees, **saving you time and money**.

The Pro Class 100™ Backroom makes it easy to:

- Adjust chemicals, hydraulics and pneumatics at the touch of a button
- Keep controls dry in one accessible location
- Minimize chemical expense through efficient delivery of the soap to the surface of the vehicle
- Use reclaim or fresh water based on local requirements
- Operate your wash and generate income faster

Local Service and Support

Belanger's comprehensive service and support give you peace of mind with your purchase. We stand behind our equipment with the most responsive service available through our nationwide Value Added Reseller (VAR) network. Our VARs are factory trained and certified installers and service technicians whose response times can be measured in hours, not days. These professionals are geared to respond to the "real world" service needs of our customers at any time.

No Limits
No Compromise
No Competition

The Pro Class 100™ car wash system is where industry-setting performance standards and system flexibility meet. Utilizing state-of-the-art technology, this system features unprecedented ease of use and life cycle reliability. Customize the Pro Class 100™ with various add-on components to optimize your business and keep your customers happy. This premier wash system puts you in a class by yourself, delivering the competitive edge you need to be successful.

The pinnacle of the Belanger Wave Car Wash System, the Pro Class 100™ is designed specifically for professional car wash operators who wish to offer the very best system available in the high-end soft cloth wash market. You'll accommodate more vehicles and run faster with this top-of-the-line wash system.

Packaged as a fully automatic, comprehensive, attended-only washing system, the Pro Class 100™ starts with six powerful cleaning components in an innovative conveyerized format. The system's modular design allows for many different configurations to meet all site requirements.

Constructed with only the highest grade of materials, like aircraft-grade aluminum, high-density plastics and state-of-the-art electronics, Belanger wash systems are built to last. Minimal maintenance and near-zero downtime, combined with the speed and power to wash an incredible 70-140 vehicles per hour, make the Pro Class 100™ one of the most profitable systems available in the high-end vehicle wash market.

The Pro Class 100™ features an operator programmable controller, giving you the ability to control wash packages seasonally and to adjust for high or low volume days. In addition, the system gives you the versatility

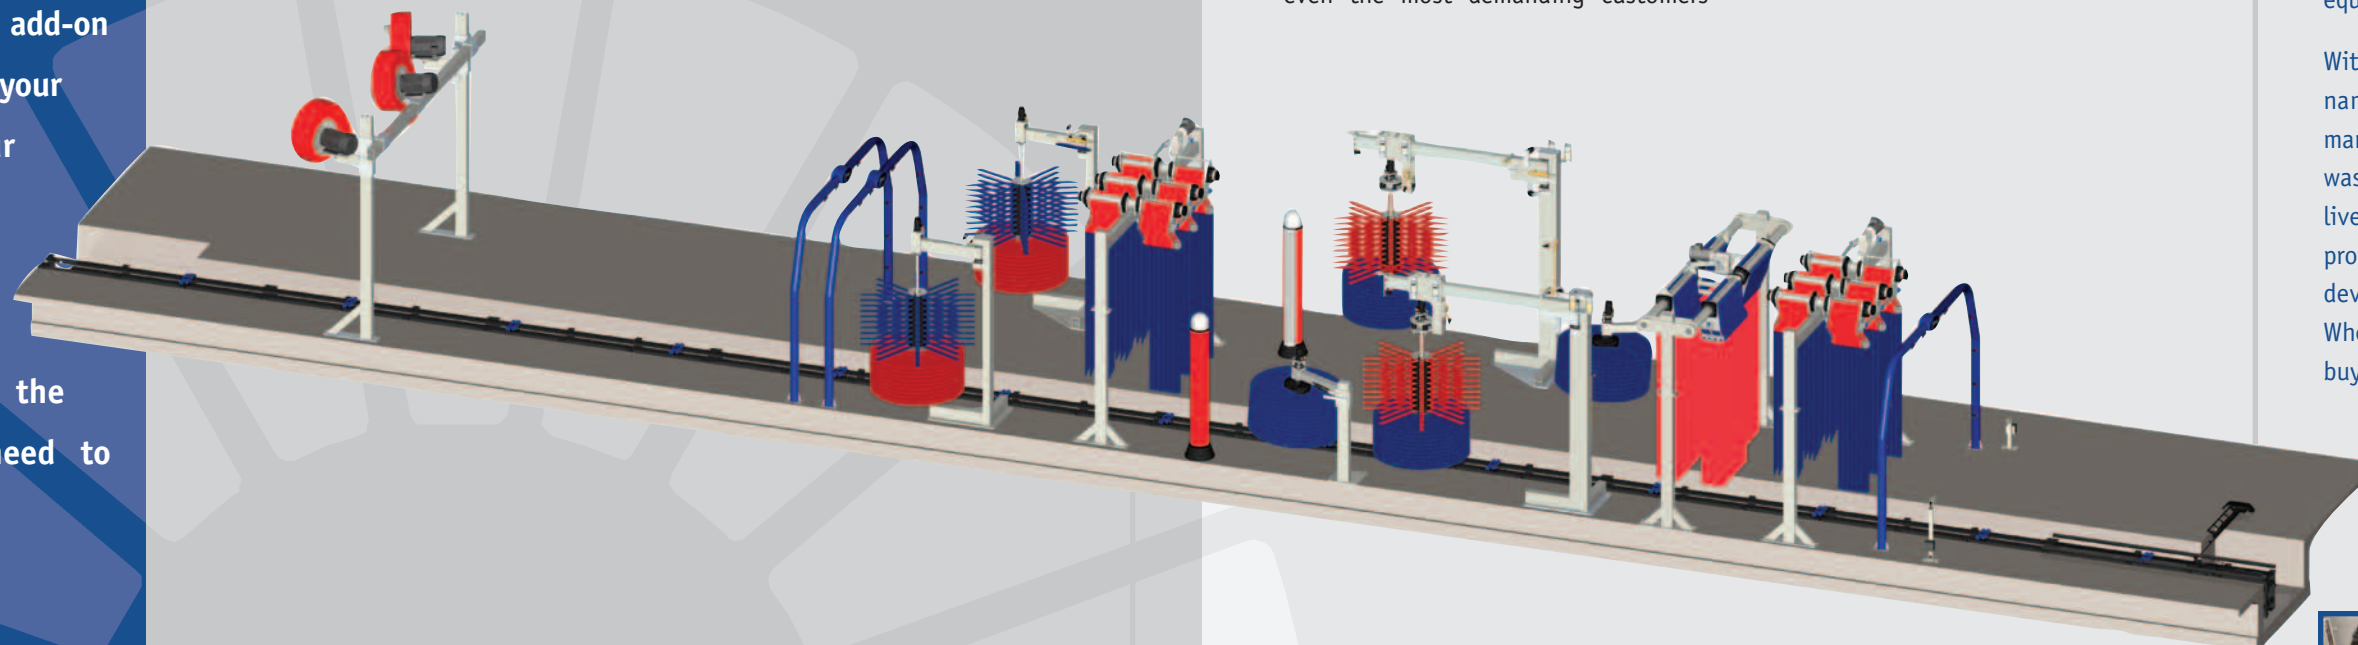

All Belanger components are built to withstand rigorous use day in and day out.

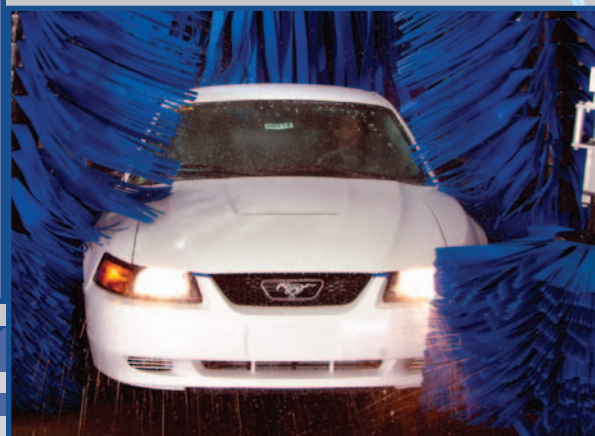

you need to add additional components that customize wash services for your market and generate additional revenue.

The Pro Class 100™ provides a pleasant, comfortable experience and consistent high-quality cleaning that will keep even the most demanding customers

coming back again and again. Bright colors and soft lines offer an inviting environment that attracts attention and enhances the customer experience.

Our unique modular design gives you maximum flexibility and control.

The Pro Class 100™ is engineered to give a consistent, high quality wash every time.

SUCCESS

Bright colors and soft lines offer an inviting look and help optimize the customer experience.

Founded in 1969, Belanger, Inc. has long been respected as an innovator in car wash manufacturing. Belanger led the industry in pioneering the first equipment designed specifically for a soft cloth car wash and, more recently, the development of our exclusive soft cloth system, the Belanger Wave Car Wash System. Along the way, we have earned the reputation of being the most customer-focused, premier supplier of high-quality car wash equipment in the industry.

With approximately 100 patents to our name, our mission is to design, manufacture, sell and service vehicle wash systems that make our customers' lives easier and their businesses more profitable. We invest in research and development initiatives every year. When you buy Belanger products, you buy the company behind the name, too.

At Belanger we incorporate state-of-the-art technology into every piece of equipment we manufacture.
